DETAILED ACTION

Claims 1-21 are pending.

Reason for allowance

Claims 1-21 are allowed. The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed limitations having a method of fabricating a thin film transistor array substrate comprising, forming a patterned photoresist layer over a stack of layers wherein the photoresist layer covers the source/drains and its peripheral regions, part of the edges of the photoresist layer has a plurality of thin-out regions with a smaller layer thickness and each first thin-out region stretches over part of the edge of one source/drain, etching the stack of layers using the photoresist layer as a mask to form a plurality of staircase structure that correspond to the thin-out regions and among other features cited in independent claims 1 and 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
